

Super lightweight, dual ear, ultra noise-canceling headset

The HD-750 is a dual-earpiece call center headset with an ultra noise-canceling microphone. The stylish die-cast aluminum frame makes it super lightweight and ideal for all day intensive use and twin speakers make it easy to give your calls your full concentration. The HD-750 is the premium product you need for the highest quality of sound and comfort in your modern office or the toughest call center environment.

Features

Benefits

Connectivity	Quick Disconnect	Interchangeable QD cable system ensures compatibility with a wide range of desk phone and Unified Communications platforms
Form Factor & Comfort	Dual ear	Aids the user with concentration on the call
	Super lightweight die cast aluminum frame	Our most durable and lightweight design, can be worn comfortably all day and stand up to the rigors of intensive contact center use
	270 degree mic-rotation	The microphone can be worn on either side to accommodate user preference
	Adjustable headband	Headband will fit a wide range of different users comfortably
Audio	Ultra Noise-canceling	Our most advanced noise-cancelation technology ensures call clarity from your agents no matter how busy the call center becomes
	Wideband frequency	The clear and natural sound is even more lifelike over suitable wideband connections
	Acoustic shock protected	Sound spikes are capped at 118dB to protect the user's hearing from damage by unexpected loud sounds on the line
Warranty	Lifetime Warranty with TruVoice Life	3 years manufacturer's replacement warranty
